Glass heater with Wi-Fi

**NEW!**

Our most exclusive panel heater with hardened glass front. The glossy front is discreet, but still provides the finishing touch in any room. A Wi-Fi thermostat with day and night turn-down program ensures the correct and comfortable temperature, and the smart weekly program saves electricity and money.

- Simple connection to Wi-Fi router in your home, at the office or hut.
- Change temperature with the Adax Wi-Fi app or on the heater itself.
- Hardened glass front.
- Splashproof (IP 24) and approved for use in wetrooms.
- Double insulated (Cl. II).
- 5-year warranty.

**Iver High: Height 330 mm, depth 91 mm**
